**August 26, 2008, Framingham MA** --'To' Becomes T-plus-Schwa  
(<sup>ə</sup>) at the Presidential Level

The weak 'to' of an infinitive form loses its enunciation  
and the verb is strengthened, or it's an affordance for  
Barack's longstanding cadence.

Will Barack recover the 'oo' in 'to' while in office?

Will more parents honor Barack with a namesake than will  
adopt the schwa (<sup>ə</sup>)?

**T'Be Determined**
